

# International Collaborations in Nuclear Theory: Theory for open-shell nuclei near the limits of stability

Scott K. Bogner (NSCL/Michigan State University), Morten  
Hjorth-Jensen (NSCL/Michigan State University) and Jason D.  
Holt (TRIUMF)

May 11-29, 2015, Michigan State University and FRIB/NSCL

## Venue: Lecture Hall at the National Superconducting Cyclotron Laboratory

We meet all at the **Theory Trailer** (Trailer nr. 7) on the eastern side of the [National Superconducting Cyclotron Laboratory](#) (640 South Shaw Lane on the MSU campus). We meet at 9am all days of the first and third weeks and at 830am the second week. Coffee plus light refreshments are served. Thereafter we walk over to the NSCL Lecture Hall. The Theory Trailer is located close the construction site of the new NSCL/FRIB building (you will see a series of trailers). The Theory Trailer is the one closest to the [Wharton Center for performing arts at MSU](#) and Bogue street. From the Town Place hotel it is a walk of at [most 20-25 min](#). For those of you arriving by plane, if Detroit Metro is your final airport, we recommend using the [Michigan Flyer](#) bus service to East Lansing. Take thereafter a taxi to the Town Place hotel. If you are staying at the Kellogg conference center, they organize a shuttle transport from downtown East Lansing. If Lansing is your final airport, we recommend taking a taxi directly to the hotel.

Alternatively, you can use CATA bus line 14 and connect with bus
